Bishow Kaji Shrestha

SOFTWARE ENGINEER / REGISTRED SCRUM MASTER /LECTURER

Panchkhal-4, Kavrepalanchok , Panchkhal • +9779843573229 • aayambishow007@gmail.com

Results-driven Software Engineer with 6 years of experience in full-stack development and team leadership. Proficient in multi-tenant management, database optimization, and maintenance. Skilled in C#, ASP.NET Core, jQuery, and SQL Server database systems. Registered Scrum Master with a track record of successful project delivery. Bachelor of Computer Application in Information Technology from Kantipur City College. Seeking opportunities to leverage expertise in software development for an innovative organization.

EXPERIENCE

Software Engineer Hattisar,Kathmandu, Nepal

Infinite Computer Solutions Feb, 2024 - Present

As a Software Engineer at Infinite, I worked on a U.S.-based health care management system under HIPAA compliance. My role involved developing core features of the insurance management system using .NET for the backend, Angular for the front end, and both Oracle and SQL Server for database management. I created new pages, optimized code, developed services and APIs, and integrated OCR functionality to enhance system capabilities. Working in a Scrum-based Agile environment, I collaborated closely with the Scrum Master to deliver high-quality solutions within each sprint cycle.

Software Engineer Hattisar,Kathmandu, Nepal

COTIVITI NEPAL Jan, 2023 - Feb, 2024

As a Software Engineer at Cotiviti, I worked on a U.S.-based health care management system under HIPAA compliance. My role involved developing core features of the insurance management system using .NET for the backend, Angular for the frontend, and both Oracle and SQL Server for database management. I created new pages, optimized code, developed services and APIs, and integrated OCR functionality to enhance system capabilities. Working in a Scrum-based Agile environment, I collaborated closely with the Scrum Master to deliver high-quality solutions within each sprint cycle.

Associate Team Lead Sanepa,Lalitpur, Nepal

InfoDevelopers Pvt. Ltd. Oct, 2021 - Jan, 2023

As an Associate Team Lead, I led three Core Banking System (CBS) projects, directly reporting to the Project Manager and CEO, and managed a team of developers. We utilized a microservices architecture with .NET Core 3.1 for the backend, HTML, JavaScript, and jQuery for the frontend, and SQL Server for the database. I implemented robust reporting solutions using Telerik Reporting and integrated pqGrid for data visualization. We prioritized security using the Identity Server to manage authentication and authorization. My role also involved setting up servers in client environments, collaborating with Business Analysts to gather requirements, hiring new developers, and ensuring continuous development in an Agile environment.

Sr. Software Engineer Sanepa,Lalitpur, Nepal

InfoDevelopers Pvt. Ltd. Dec, 2020 - Oct, 2021

As a Senior Software Engineer at InfoDeveloper, I trained and mentored junior developers, guiding them in best coding practices and project workflows. I was also responsible for setting up servers in the client environment and optimizing code to improve system performance. Additionally, I contributed to the development and enhancement of the Core Banking System (CBS), ensuring the delivery of robust and efficient solutions for our government clients.

Software Developer Sanepa,Lalitpur, Nepal

InfoDevelopers Pvt. Ltd. Mar, 2020 - Dec, 2020

As a Software Engineer at InfoDeveloper, I worked on a Core Banking System (CBS) project for the government office CIT. My primary focus was on generating reports using Telerik Reporting and writing optimized stored procedures to enhance report performance. I played a key role in ensuring the accuracy and efficiency of data retrieval, contributing to streamlined reporting processes for the project.

Junior Software Engineer Sanepa,Lalitpur, Nepal

InfoDevelopers Pvt. Ltd. Dec, 2019 - Feb, 2020

As a Junior Software Engineer at InfoDeveloper, I worked on a government project related to a core banking system. My responsibilities included tasks assigned by the team lead, which I completed using .NET Core, jQuery, and SQL. I focused on implementing key functionalities and ensuring seamless integration within the system, contributing to the project's overall development and success.

Junior Dotnet Developer Pulchwok,Lalitpur, Nepal

Bitspanda Technology Dec, 2018 - Dec, 2019

As a Junior Developer at Bitspanda Technology for one year, I developed and maintained an agro-related CMS, focusing on core functionality, content management, and user-friendly design. I collaborated closely with the team to integrate third-party APIs, optimize database performance, and enhance application speed. My role involved troubleshooting, debugging, and delivering feature enhancements based on client feedback, using technologies like C#, JavaScript, HTML, CSS, and SQL. Through my efforts, I successfully delivered the project on time, earning positive feedback for its performance and usability.

EDUCATION

Bachelor Of Computer Application Putalisadak, Kathmandu, Nepal.

Kantipur City College Oct, 2024 - Oct, 2024

PROJECTS

Core Banking System

Feature: Deposit, Load, Mutual Fund A/C Statement, Trail balance, Profit and Loss Statement, Journal, Ledger, etc

Health Care System

Feature: HIPPA compliance, OCR, Complex file handling
